

## MR. TAFT'S CALLERS ARE NOW OPTIMISTIC OVER HIS CHANCES

President Nomination as  
Good as Cinched.

SAY HIS DECLARATION DID IT

Meanwhile Friends of Colonel Roosevelt Are Equally Confident That Their Favorite Will Land Prize at Chicago Convention Next June and Leave No Stones Unturned to Arouse Sentiment Adverse to Taft Among Farmers of the Country.

Washington, Jan. 5.—Insofar as the national administration is concerned, President Taft's declaration that he is in the nomination fight to the death and that he will go into the convention if he has but one vote at his back, has cleared the political atmosphere considerably. The men who have been supporting the president are now firmly convinced that in the end the convention will be compelled to accept Mr. Taft, for the reason that the policies of a Republican national administration are on trial and that the head of that administration is the proper candidate to represent these policies. There are also Taft supporters who tell you unreservedly that the opposition to his renomination will crumble and be utterly shattered by the time the Republicans assemble in Chicago in June next.

The president had a number of visitors, including Senators Crane, Nelson, Smoot, Dillingham, Brandegee and Brown of Nebraska, and they told the president that he could stand pat with the certain knowledge that the delegations of their respective states would be for him to the end. Other influential Republicans who visited him at the White House congratulated the president on his firm stand in the present situation.

Opposition Outlines Campaign. It is the opinion of the friends of Colonel Roosevelt, on the other hand, that opposition to the president's renomination will not crumble before convention time, for the Roosevelt men already have outlined their plan of battle.

There are many old supporters of Roosevelt who believe they can insure President Taft through his reciprocity measure. They tell you that the National Grange and the grangers in all states have from the start been marked in their opposition to this reciprocity measure, and that this opposition will prove most effective when the national convention assembles next summer. The representatives of these granges are convinced that the Republican farmers will not support Taft if he is renominated. And the Roosevelt adherents, it is insisted, are now at work fanning the opposition of the representatives of these grangers to the Taft administration.

### FEAR FOR WITNESS

McManigal to Be Smuggled Into Indianapolis Under Guard.

Indianapolis, Jan. 5.—Orrie McManigal, confessedly a member of the dynamiting staff of John J. McManama, was not brought into this city, as was expected, but will arrive here in time to testify before the federal grand jury on Monday. Agents of the department of justice guarded with greatest secrecy the whereabouts of McManigal. Federal authorities say they feared some act of vengeance against him unless his movements were carefully hidden.

### TODAY'S NEWS BITS.

President Taft's visitors are exceedingly optimistic over the outlook now that he has declared himself positively. They claim the fight is now a cinch for Taft.

Beef Trust profits are declared to be small by expert witnesses in the Chicago packers' trial. Continue to divulge secrets.

Governor Woodrow Wilson it is alleged has broken with Editor Harvey, of New York, the original Wilson Boomer.

Colonel Roosevelt still refuses to talk and persistent reporters who climbed Sagamore Hill climbed right down again.

Taggart keeps his promises and Governor Marshall, of Indiana is endorsed for the Presidential nomination.

### MONEY IS IN BY-PRODUCTS

Declares That Armour Packing Company Cleared \$1 on Each Steer Killed During Year 1899, of Which Three Cents Represented Profit on Meat — Ninety-seven Cents Came From Sale of Glue, Oleo and Hides. Is Called Down by Judge.

Chicago, Jan. 5.—Judge Carpenter became impatient over the evasive tactics employed by William D. Miles, who was believed to be one of the strongest witnesses for the government in the case against the 10 indicted packers, and told him to answer questions in a direct manner.

Miles made a statement that was startling when he quoted figures of profits of the Armour Packing company of Kansas City for the year preceding Oct. 28, 1899. Of this company he was then manager. According to these there was only 3 cents profit on the whole carcass or the meat of a steer. The profit from the glue made from the hoofs was 18 cents, or six times as much as that made on the whole beef. Forty-two cents is derived from oleo and its by-products and 37 cents made on hides.

Quoted From Memorandum.

These figures were mystifying to the government's attorneys. But Miles stood by them, quoting from a memorandum book he carried. To be exact, he said that on 204,820 head of cattle the earnings were \$202,875. That means the profit made on a head of cattle was approximately \$1. He gave further figures on the by-products earnings. As a result the 3 cents per steer profit was found.

Arthur Colby, assistant secretary and a director of the National Packing company, is on the stand today. The National Packing company, the government hopes to prove, is the instrument through which the alleged fixing of fresh meat prices was accomplished.

Youngstown Man Enters Constitutional Convention Race.

Columbus, O., Jan. 5.—D. F. Anderson of Youngstown has announced his candidacy for the presidency of the Ohio constitutional convention, which will meet here for organization next Tuesday. The other candidates are Rev. Herbert S. Bigelow of Cincinnati and Judge Caleb H. Norris of Marion.

Mr. Bigelow claims 52 votes of the 119 delegates pledged to him in writing. Judge Norris and Mr. Anderson make no specific claims, but express confidence in victory.

The Bigelow supporters secured two active endorsements, that of John D. Fackler, manager of the La Follette campaign in Ohio, and John R. Cassidy, Democrat, of Bellefontaine.

## NEW BALL CIRCUIT IS NEARLY COMPLETED

Cincinnati and Pittsburg Awarded Franchises.

New York, Jan. 5.—At the hotel Imperial the promoters back of the United States baseball league, launched in December, held their second meeting. When this new aspirant for baseball patronage met before, it was announced that it had five cities assured, and the number has now increased to seven—New York, Brooklyn, Washington, Pittsburg, Richmond, Cincinnati and Reading. Pittsburg and Cincinnati are the two points recruited since the last meeting.

The eighth city will be chosen from several applications that have been received, Chicago looking like the winner. The league will meet again in 10 days. Any intention of fighting the existing league was denied, and no contract jumpers will be placed in the new league.

### Stop Road Extension.

Columbus, O., Jan. 5.—The public service commission refused to grant permission to the Columbus, Urbana & Western Railway company, operating a seven-mile line between Columbus and Fishinger's bridge, to issue \$500,000 bonds to extend its road to Findlay and construct a branch from Kenton to Wapakoneta, a total of 125 miles. No reason for the refusal was given in the formal entry.

As a Christmas gift Rufus Burcham, a life prisoner in the state penitentiary, received a pardon at the hands of Governor Judson Harmon of Ohio. It was granted, however, only after the man (who had been convicted of complicity in a murder in which he was afterward shown to have had no part) had promised Mrs. Harmon that he would abstain from strong drink and lead an upright life. Mrs. Harmon, who was the talented daughter of an Ohio physician, takes a keen interest in her husband's work and particularly in the applications for executive clemency that come to him. Her social life has been a busy one, both in Cincinnati and in Washington, where she and her daughters were well known and popular figures. The photograph here reproduced shows her with a favorite niece.

## HARVEY TURNED DOWN GOVERNOR WILSON AT OUTS WITH NEW YORK EDITOR

Trenton, N. J., Jan. 5.—A report, said to have originated in Newark, was circulated here that there had been a break between Governor Wilson and Colonel George B. M. Harvey, editor of Harper's Weekly, who was formerly a close political friend and adviser of the governor. According to the story, which is whispered by politicians who profess to have inside information, Governor Wilson had gone to the length of writing a letter to Colonel Harvey suggesting that the colonel's active interest in the Wilson movement was injuring rather than helping his cause. Definite information as to the contents of the supposed letter is lacking, but some of Governor Wilson's friends are known to have suggested that the endorsement of Colonel Harvey was displeasing to some of the Democrats whom the governor is seeking to enlist in his cause.

Sicilian Murderer Says He Is Being Crucified Like Christ.

Columbus, O., Jan. 5.—Dominic Salvaggio, a Sicilian, was received at the penitentiary annex today to await execution on April 17. Salvaggio was convicted of murder in the first degree at Sandusky for the killing on Kelly's Island last September of three of his countrymen. Rocco Klawetch, another Sicilian, was convicted for the same offense, but escaped the death chair on a recommendation of mercy by the jury. Before sentence was pronounced Judge Stahl asked Salvaggio if he had anything to say, and in broken English he replied, "I am a martyr like Jesus Christ, nailed to the cross."

Will Be Used as Pattern for  
New Steel Schedules.

### BIG CUT IN RATES PROPOSED

Democratic House Members Will Caucus Next Week to Consider Report of Subcommittee Now at Work on Iron and Steel Sections of Underwood Tariff Revision Measure. Proposition of Cummins Considered Fair to Consumer and Producer.

Washington, Jan. 5.—The committee on ways and means of the house is making rapid progress in the work of revising the iron and steel schedule of the Payne-Aldrich tariff law. The subject was discussed at a meeting of the committee, at which Chairman Underwood presided. The subcommittee having the metal schedule under consideration, composed of Representatives Dixon of Indiana, Palmer of Pennsylvania and Hull of Tennessee, reported that they would be ready to submit their conclusions to the full committee at an early date.

Provides Horizontal Reduction.

In large measure the Democratic iron and steel bill will approximate the iron and steel revision proposed by Senator Cummins of Iowa at the special session of congress held last summer. The Cummins bill provided for a horizontal reduction of 40 per cent on tonnage iron and steel, with the exception of structural iron and steel, for which lower rates will be proposed. The Cummins bill provided for a horizontal reduction of 30 per cent on the higher products of manufactures of iron and steel.

In the opinion of the Democratic leaders the Cummins bill was a well-considered measure, fair alike to the consumer and the trade. The rates of that measure approximately will be written into the Underwood bill.

Indications are that the iron and steel revision bill will be made the subject of a Democratic caucus to be held next week. Soon thereafter it will be reported to the house.

### Workers Blown to Pieces.

Marion, O., Jan. 5.—James Bartram, 35, a groom of but a few months, and an Italian, who went by the number of "43," were blown to bits by a dynamite explosion at the local quarries of the Ohio and Western Lime company. Parts of the two men were found 100 feet away from the scene of the explosion, which shook the entire city.

## Y. M. C. A. Hardware Perished in Fire

Each day brings to light new fire losses, lesser in degree than those in the foreground but adding to the stupendous total.

The Fayette Hardware Company sustains another loss and the Y. M. C. A. building another set back in the burning of all the hardware for the new building.

The Fayette County Hardware Co. had been given the contract for the hardware for the entire Y. M. C. A. building. It was placed with the Yale-Towne Co. The size and caliber of the order was such that it had taken 3 months for its filling and only two days before the fire had been received by the hardware company. It had not even been unboxed, when it perished with the rest of the company's stock, entailing an additional loss of \$645.

The company has already duplicated the order and it will be rushed through, but at the best will necessitate a distressing delay.

The Y. M. C. A. trustees are making the best of uncontrollable circumstances and are working on plans for the industrial school, to be known as the Stimson building. This school will be pushed as rapidly as possible and it is hardly probable that the second building will meet with such handicaps to its erection as have blocked the completion of the Y. M. C. A. building.

### HEADACHE!—IT'S YOUR LIVER

Too Many People Take Headache Powders When a Liver Tonic Is Needed.

Try Olive Tablets—the Substitute for Calomel.

Dr. Edwards' Olive Tablets are the one substitute for dangerous calomel. They do all of calomel's work without any of its bad after effects.

There is no necessity, when you take Olive Tablets, of following them up with nasty, sickening, griping salts or castor oil, as you should after taking calomel.

Olive Tablets do not contain calomel or any other metallic drugs; they are a purely vegetable compound mixed with olive oil, sugar-coated, easy to take, and never gripe or cause weakness.

Thousands of people take one every night at bedtime just to prevent disorder of the liver, constipation, bad breath, pimples, headache, etc.

Olive Tablets are made of pure vegetable compounds mixed with olive oil.

Dr. Edwards, calomel's old enemy, discovered the formula for Olive Tablets after seventeen years of practice among patients afflicted with liver and bowel troubles.

Try them for a week. Take one on retiring nightly.

"Every little Olive Tablet has a movement all its own."

## Y. M. C. A. Hardware Perished in Fire

Each day brings to light new fire losses, lesser in degree than those in the foreground but adding to the stupendous total.

The Fayette Hardware Company sustains another loss and the Y. M. C. A. building another set back in the burning of all the hardware for the new building.

The Fayette County Hardware Co. had been given the contract for the hardware for the entire Y. M. C. A. building. It was placed with the Yale-Towne Co. The size and caliber of the order was such that it had taken 3 months for its filling and only two days before the fire had been received by the hardware company. It had not even been unboxed, when it perished with the rest of the company's stock, entailing an additional loss of \$645.

The company has already duplicated the order and it will be rushed through, but at the best will necessitate distressing delay.

The Y. M. C. A. trustees are making the best of uncontrollable circumstances and are working on plans for the industrial school, to be known as the Stimson building. This school will be pushed as rapidly as possible and it is hardly probable that the second building will meet with such handicaps to its erection as have blocked the completion of the Y. M. C. A. building.

### HEADACHE!—IT'S YOUR LIVER

Too Many People Take Headache Powders When a Liver Tonic Is Needed.

Try Olive Tablets—the Substitute for Calomel.

Dr. Edwards' Olive Tablets are the one substitute for dangerous calomel. They do all of calomel's work without any of its bad after effects.

There is no necessity, when you take Olive Tablets, of following them up with nasty, sickening, griping salts or castor oil, as you should after taking calomel.

Olive Tablets do not contain calomel or any other metallic drugs; they are a purely vegetable compound mixed with olive oil, sugar-coated, easy to take, and never gripe or cause weakness.

Thousands of people take one every night at bedtime just to prevent disorder of the liver, constipation, bad breath, pimples, headache, etc.

Olive Tablets are made of pure vegetable compounds mixed with olive oil.

Dr. Edwards, calomel's old enemy, discovered the formula for Olive Tablets after seventeen years of practice among patients afflicted with liver and bowel troubles.

Try them for a week. Take one on retiring nightly.

"Every little Olive Tablet has a movement all its own."

10c and 25c per box.

The Olive Tablet Company of Columbus, Ohio. Dr. F. M. Edwards, President.

THE PROGRESSIVES.

The people are hearing and reading much these days about "progressives" and "reactionaries."

We have Republican progressives and Democratic progressives, but very few announced radicals or reactionaries in either party, although many prominent men are just now accused of being reactionaries.

Strange too, there seems to be nothing in the English language which will make a public man fighting mad as quick as to call him a reactionary. Every man in public life nowadays wants to be known as a progressive. Progressives just now are all the style and no announced and acknowledged reactionary or standpatter has a chance with the people.

A few years ago it was different. The "conservatives" were then the prevailing style and complexion among the public men with both public servants and would-be public servants.

But since the people have changed the name of conservatives to reactionaries there has been a rush for the progressive counter which makes a clearance sale crowd look like a funeral procession.

Every political gathering in these times calls itself a progressive gathering and starts in by resolving that the other fellows who want office are "reactionaries" then the burden of disproving the charge on the other fellows.

The standard dictionary defines a "Reactionary" as one who favors reaction, adherence or return to an old or an opposite system, a conservative.

A "Progressive" is defined as one who is aiming at or encourages progress, making efforts to advancement, especially one who favors or promotes reforms or changes in politics or religion—a radical opposed to conservative.

This is a prgressive age. The word as applied to public men has become popular because the people are demanding progress and reform, and are opposed to a return to the old order of things or to even stopping where we are in the work of reform and progress.

Fifteen years ago the people had not fully determined to change the then existing order of things political and the progressive of that day was given the harsher name of radical, while the reactionary of that time was known by the more euphonious word "conservative".

All through the history of the nation we have had the radical and the conservative fighting for the mastery. The types now are not different from the types in the time of Jefferson and Hamilton. The ideas of the two opposing schools are the same now as then. The one believes in the people and that the people should progress—grow in power, the retention and acquisition of wealth in proportion to their industry, their growth in knowledge and in morals. The other believes that the people should be contented with what they have, while the few specially qualified by nature and birth, should assume the responsibility of control for the benefit of the people.

Most politicians, no matter what their real belief is, generally announce themselves as belonging to the type popular at the time they desire to gratify their political ambitions.

Little attention is accorded by the people these days, however to what the politician and the office-seeker says he is. He is judged by his past record and his associates and supporters.

The people believe that where a man has drawn his inspiration and salary in years gone by there will he be found in the future.

The progressives did not always enjoy the favor of the people as they do today. There was a time when the progressives were in the minority fighting for the reform and progress which is now universally popular, while men who now seek the favor of the people's ballots were basking in the sunshine of popularity which came only to those who were conservatives in word and deed.

Have these men changed their views or only their words. That is what the people want to know and are going to find out before they cast their ballots.

Poetry - Today

RESOLUTIONS.

This one is bent like a fishhook,  
And that one is twisted and torn;  
Yonder is one that is battered  
And here is another that's worn!  
Interlocked, linked in confusion,  
A mass of debris, there they lie—  
And the tremble of grief is alive on  
my lip,  
While a glittering tear's in my eye!

They that but yesternight coming  
Brand-new from the source of their  
being—  
See, they lie twisted and crippled,  
Hopeless and dying, unseeing;  
All out of shape they are mangled,  
Bent in a million of forms  
As if they were struck by some ter-  
rible sea  
Or wrecked by un pitying storms!

That one is bent! O, the picture!  
This one's a wreck of itself!  
Yonder is one like a pretzel,  
And look at the one on the shelf!  
Bent, torn and twisted, they mock me  
Bent but unbroken—ah, yes!  
But another short season will snap  
them in two,  
I am perfectly free to confess!

Makes Adjustment

The insurance adjusters have completed the adjustment of the damage done to the stock of goods of Leo Katz & Company, when the dense smoke poured into the rooms through broken windows, and by the water used in extinguishing the flames which caught in a number of the wood window frames and threatened the store with destruction.

The loss on plate glass, which was insured, was also heavy, but was allowed in full. A smoke and water damage sale is announced.

The people believe that where a man has drawn his inspiration and salary in years gone by there will he be found in the future.

The progressives did not always enjoy the favor of the people as they do today. There was a time when the progressives were in the minority fighting for the reform and progress which is now universally popular, while men who now seek the favor of the people's ballots were basking in the sunshine of popularity which came only to those who were conservatives in word and deed.

Have these men changed their views or only their words. That is what the people want to know and are going to find out before they cast their ballots.

RESOLUTIONS.

This one is bent like a fishhook,  
And that one is twisted and torn;  
Yonder is one that is battered  
And here is another that's worn!  
Interlocked, linked in confusion,  
A mass of debris, there they lie—  
And the tremble of grief is alive on  
my lip,  
While a glittering tear's in my eye!

They that but yesternight coming  
Brand-new from the source of their  
being—  
See, they lie twisted and crippled,  
Hopeless and dying, unseeing;

All out of shape they are mangled,  
Bent in a million of forms  
As if they were struck by some terrible sea  
Or wrecked by un pitying storms!

That one is bent! O, the picture!  
This one's a wreck of itself!  
Yonder is one like a pretzel,  
And look at the one on the shelf!  
Bent, torn and twisted, they mock me  
Bent but unbroken—ah, yes!  
But another short season will snap  
them in two,  
I am perfectly free to confess!  
—Baltimore Sun.

## Makes Adjustment

The insurance adjusters have completed the adjustment of the damage done to the stock of goods of Leo Katz & Company, when the dense smoke poured into the rooms through broken windows, and by the water used in extinguishing the flames which caught in a number of the wood window frames and threatened the store with destruction.

The loss on plate glass, which was insured, was also heavy, but was allowed in full. A smoke and water damage sale is announced.

## Neighbors Mention Rebuilding Plans

Immediately upon the heels of the news of the recent great fire catastrophe in this city, the press throughout Ohio has given publicity to the rebuilding plans of losers in the fire, and the enterprise of these men is admired by all who read of the big loss.

Many such reports as the following which appeared in Thursday's Chillicothe Gazette, are carried by neighboring city newspapers:

"George B. Warner, Charles Wissler, Frank Marzluff, Wm. Woodrow and A. P. Robinson drove to Washington C. H. on Wednesday afternoon to see the ruins of the big fire. They found that on all sides efforts are being made to re-build and in a short time new buildings will replace the ones that were destroyed."

## TAKE TOO BIG CHANCES.

Why is it that men and women will never learn that overwork and nervous strain will certainly ruin health. Every day the papers tell of the dreadful results of overtaking one's strength, yet the others keep right on without profiting by the lesson.

Henry Jacobs of Ninth avenue, N. Y., went through this experience and now writes in a letter: "I was in bad health for two years, very nervous and weak, no appetite, could not sleep well and had no ambition or energy. I was getting worse all the time.

"But since I began taking Vinol there is a wonderful difference. I have gained 14 pounds in less than two months, have a splendid appetite and can enjoy my meals. My nerves are strong and I sleep soundly. I simply feel fine now, which shows what Vinol did for me."

Our delicious cod liver and iron

remedy, Vinol, will do as much for all other run-down, worn-out people, if they will only give it a chance. There is no risk for we give back the money if Vinol fails to satisfy you. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

## MARY HAND OF NEWPORT SAYS

"My hair was falling out and my scalp covered with dandruff. Various hair tonics failed to have any effect until I tried Mrs. Mason's Old English Shampoo. It also made my hair grow long, thick and glossy." Blackmer & Tanquary and other druggists.

## CARD OF THANKS.

We desire to thank the neighbors and friends for their kindness shown to our wife and mother during her illness and at the time of her death; also the Maccabees, Senior Class and Bell Telephone operators for their beautiful flowers.

L. D. BISHOP AND FAMILY.

## Packing House Burns

The Metcalf & Fox packing house of Kingston, together with contents of the plant, was consumed by fire Tuesday night, the flames catching from a fire used in smoking meat.

The fire well was in the plant, and the small fire department could do nothing but let it burn. The loss was total, reaching over \$3,000.

## Saved the Cash

Since something like order has been restored from the chaos wrought Saturday night, it develops that only about \$60 in change was lost in Stutson's store.

Miss Carrie Craig, the cashier, collected the money from the cash drawer and turned it over to Mr. Wm. Holmes just before being forced to flee for her life.

**Nine Frozen In Canada**  
Special to Herald.  
Winnipeg, Man., Jan. 5th.—Mounted police today found bodies of six men, one woman and one child, frozen to death under the snow, eighty miles north of here.  
Great suffering from cold exists throughout the northern territory.  
Charles Durham, Lovington, Ill., has succeeded in finding a positive cure for bed wetting. "My little boy wet the bed every night clear through on the floor. I tried several kinds of kidney medicine and I was in the drug store looking for something different to help him when I heard of Foley Kidney Pills. After he had taken them two days we could see a change and when he had taken two-thirds of a bottle he was cured. That is about six weeks ago and he has not wet in bed since." Blackmer & Tanquary.

**Elks' Reunion Will Not Conflict**  
Through the efforts of John P. Sullivan, Grand Exalted Ruler of the Elks, conflicts in the dates of the important conventions of 1912 have been avoided.  
As soon as it was decided that the Elks would hold their annual reunion in Portland during the week of July 8, Mr. Sullivan conferred with officials of the Grand Army and the Shriners with the result that the conventions of those organizations will be held in Los Angeles, in September and May respectively. By urging the subject on members of the Republican National Committee he succeeded in having the date for the Republican convention in Chicago set for the week of June 18. He has started similar negotiations with the Democratic National committee and it is probable that another week than that chosen by the Elks will be selected for the Democratic convention.

**Hundreds Homeless By Chicago Fire**

**Urbana's Mayor And City Council**  
The new mayor of Urbana, David Green, who was elected on the Republican ticket, is at war with the new City Council, which has been endeavoring to secure the consolidation of the Service Director and the Waterworks Superintendent in order to reduce expenses, but Mayor Green refused to join this movement.  
Attorney-General Hogan was appealed to and ruled that such a consolidation could not be forced by the Council if the mayor refuses. The majority of the Council still insists on consolidating the offices. The mayor made all of his appointments and named his brother-in-law, D. J. McCarthy as Service Director, and the appointment has met with the disapproval of the public generally.  
In order to make McCarthy resign, the Council Thursday night gave a second reading of the ordinance cutting the Director's salary to \$12 per annum from \$500. The Council Thursday served a legal notice on the mayor requiring his presence at the Council meeting Thursday night and in turn the mayor served a legal notice on the Council demanding that body require the Urbana Light Company and the Urbana Telephone Company to place all of their poles inside of the curb, instead of the street.

Emma Hodge against James Hodge and thirty-one others is the style of a case just filed in Common Pleas court, in which the plaintiff, as one of the heirs-at-law of James Coll, deceased, seeks to have her interest in seven tracts of land in the Millidgeville neighborhood, set apart.  
The total amount of the land is about 250 acres. The case is one of more than ordinary interest because of the number of persons involved and the various phases of the situation which makes the suit necessary.

# Nervous Trouble Has Many Phases

Strain and Worry of Modern Life Makes Numbers of People Physical Wrecks.

The country is filled with half sick worn out, nervous people. The cause is nervous debility and it is produced by the strain and worry of modern life.

The symptoms of nervous debility are stomach trouble, uneasy sleep, nervousness, little energy, or vitality, constipation, poor circulation, bad memory, cold feet, weak back and susceptibility to coughs and colds.

A man or woman afflicted with this debilitated condition has little happiness, as the trouble always produces a mental depression that causes the sufferer to look on the gloomy side of life, and be dissatisfied with the present, and have small hope for the future.

Anything, to be successful, should add to the happiness of the human race. No medicine ever before sold in the United States has been so tremendously successful as the wonderful new tonic "Tona Vita." The reason is plain. "Tona Vita" is bringing back health and happiness to thousands of discouraged, "rundown" men and women.

Are you in this rundown, debilitated condition? Do you tire easily, sleep poorly and feel half dead most

Lee's Rhubarb Laxative is an assistant remedy to "Tona Vita." It is to be used in cases of chronic constipation. Weatherman Turns

His Cold Shoulder

Mr. O. U. Weatherman's New Year  
resolutions were smashed into smith-  
ereens Thursday night when he turned  
the latest model, Iceland cold air  
bellows upon this particular part of  
the world, not forgetting to add  
enough snow to make things interest-  
ing.

In order to complete the extra  
work thus thrust upon him, Mr. J.  
Frost, an employee of O. U. Weather-  
man, has been working overtime mak-  
ing artistic show window displays.

Miss Mur Cury flirted with Mr. Z.  
Rowe in the most shocking manner,  
showing no embarrassment whatever,  
although thousands of persons not-  
iced the fact and commented upon it  
particularly when she hugged Z.  
Rowe, probably remembering her leap  
year privilege.

Present indications are that this  
flirtation will be continued for some  
time until Miss Mur Cury's affection  
for Mr. Free Zing Mark is renewed.

Nervous Trouble

Has Many Phases

Strain and Worry of Modern Life  
Makes Numbers of People  
Physical Wrecks.

The country is filled with half sick  
worn out, nervous people. The cause  
is nervous debility and it is produc-  
ed by the strain and worry of modern  
life.

The symptoms of nervous debility  
are stomach trouble, uneasy sleep,  
nervousness, little energy, or vitality,  
constipation, poor circulation, bad  
memory, cold feet, weak back and  
susceptibility to coughs and colds.

A man or woman afflicted with  
this debilitated condition has little  
happiness, as the trouble always pro-  
duces a mental depression that causes  
the sufferer to look on the gloomy  
side of life, and be dissatisfied with  
the present, and have small hope for  
the future.

Anything, to be successful, should  
add to the happiness of the human  
race. No medicine ever before sold  
in the United States has been so tre-  
mendously successful as the wonder-  
ful new tonic "Tona Vita." The rea-  
son is plain. "Tona Vita" is bring-  
ing back health and happiness to  
thousands of discouraged, "rundown"  
men and women.

Are you in this rundown, debilitat-  
ed condition? Do you tire easily,  
sleep poorly and feel half dead most

of the time? If you are you can get  
immediate relief and renew your abil-  
ity to fight life's battles by letting  
this great Tonic build you up and  
restore your strength. Don't drag  
around feeling miserable and hope-  
less another day. You will posi-  
tively be astonished how quickly  
"Tona Vita" will start you on the  
road to health. The tonic is sold  
with the distinct understanding that  
it must renew your health, or the  
price is refunded.

Lee's Rhubarb Laxative is an as-  
sistant remedy to "Tona Vita." It  
is to be used in cases of chronic con-  
stipation. There is no plant known  
to modern medicine so thoroughly re-

liable and harmless as rhubarb. It  
is nature's own laxative and instead  
of straining the intestines, like other  
drugs, tones them up and gives them  
new strength. Lee's Rhubarb Laxa-  
tive is the safest possible laxative  
for children and they like the taste.  
It should be in every household.

These two great preparations are  
sold in Washington C. H. by Brown's  
Drug Store.

## Thoughts of Fire Cause Uneasiness

Business men and citizens in general are naturally exercising a great deal of caution against fire since the Saturday night horror, and the least unusual noise such as the crackling of folding paper, causes immediate alarm.

The mysterious cycle of three fires in quick succession, which has long been remarked upon in this city, causes the belief that two more fires will occur within a short time, and just where these will burst forth is the cause of considerable uneasiness among those of a nervous temperament.

In many instances extra insurance has been secured on buildings and the stocks of goods, regardless of the

high rate in force in this city.

## Hartman Theater

A. G. Delamater will present Thomas A. Wise in his new play "Cy Whitaker's Place" at the Hartman Theater on Thursday, Friday and Saturday, Jan. 18, 19, 20th. It is a dramatization of Joseph C. Lincoln's novel of the same name and presents Mr. Wise in one of the best roles of his remarkable career. He originated the role of Senator Langdon in "The Gentleman from Mississippi" and many other prominent successes. In the new play Mr. Wise takes the part of a retired Sea Captain and it is said to fit him to a nicety. The play is purely American, the characters are all American and the very fine cast and production reflect credit upon the American stage and the theater-going public in this country.

## Still Unconscious

Turl Blackmore, the carpenter who was seriously injured by falling from a ladder while at work on the Hess livery stable Thursday morning, is still in an unconscious state and his condition is regarded as critical with the chances of recovery against him.

Thursday night his physician remained at his bedside, and administered to his sufferings. During the night the patient suffered a number of convulsions, and it required several men to hold him in bed.

A fracture of the skull is believed to have taken place when he struck upon the frozen ground, and a fearful concussion resulted. It is thought that it will be necessary to remove a section of the skull in order to save his life, if indeed this will do it. The

heavy pressure of the injured skull upon the brain has caused the convulsions.

Mr. Blackmore has been very unfortunate. Upon one occasion he fell from a box car and dislocated his shoulder. Upon another occasion while at work near Eber he fell and was seriously injured. He is a heavy man, and the fall Thursday was a fearful one, although the distance could not have been more than twelve feet.

### FOR YOUR HAIR.

Here are Facts We Want You to Prove at Our Risk.

When the roots of the hair are entirely dead and the pores of the scalp are glazed over, we do not believe that anything can restore hair growth.
